PERSONAL PROFILE

I am a dedicated and adaptable Web Developer with hands-on experience in website development, debugging, testing, and troubleshooting. I work with modern web technologies and utilize AI-powered tools to improve development efficiency, explore solutions, enhance problem-solving, and continuously expand my technical knowledge. I am eager to take on new challenges, contribute to meaningful web development projects, and deliver reliable, functional, and user-focused solutions. I am committed to continuous learning, professional growth, and using both technical skills and AI-assisted tools responsibly to contribute to the success of the team and organization.

WORK EXPERIENCE

OJT 3 MONTHS

Mar 2025 – Present

Web developer assistant

I helped maintain and improve an existing web application by setting up the development environment, testing its features, identifying and reproducing bugs, fixing issues, documenting remaining problems, and using GitHub to track and submit development work

Web developer

Jun-july- 2026

Work from home/training

As a programmer, I worked on developing and maintaining web applications, writing and debugging code, fixing system issues, testing features, and implementing new functionality.

Official employee

Aug-sept 2026

Work from home

Worked on assigned web development tasks, including feature implementation, bug fixing, functionality testing, and version control using GitHub.
